

# ACADEMIC PERFORMANCE INDEX RANKINGS

**Ttl:** Total # of students included in API testing **'07:** The 2007 API Growth summarizes a school's performance on the 2007 STAR and CAHSEE tests. The API scores are on a scale of 200 to 1,000. Elementary grades are based on English and math tests, high schools also include science and social studies tests. **'06:** The 2006 Base **Chg:** Compares 2007 points with those from 2006 **Met:** Shows whether schools improved enough to meet state targets for the school as a whole, as well as for racial, ethnic and economic subgroup.

\*The API is asterisked if the school or LEA (local educational agency) was small in either 2006 or 2007. APIs based on small numbers of students are less reliable and therefore should be carefully interpreted.

# ACADEMIC PERFORMANCE INDEX RANKINGS

**Ttl**: Total # of students included in API testing. **'07**: The 2007 API Growth summarizes a school's performance on the 2007 STAR and CAHSEE tests. The API scores are on a scale of 200 to 1,000. Elementary grades are based on English and math tests, high school's also include science and social studies tests. **'06**: The 2006 Base. **Chg**: Compares 2007 points with those from 2006. **Met**: Shows whether schools improved enough to meet state targets for the school as a whole, as well as for racial, ethnic and economic subgroup.

\*The API is asterisked if the school or LEA (local educational agency) was small in either 2006 or 2007.  
APIs based on small numbers of students are less reliable and therefore should be carefully interpreted.
